# Parlez-vous C&YP?

## Promoting Children's Wellbeing in Liverpool - Levels of Need as a Continuum

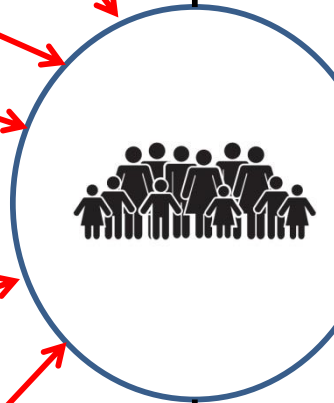

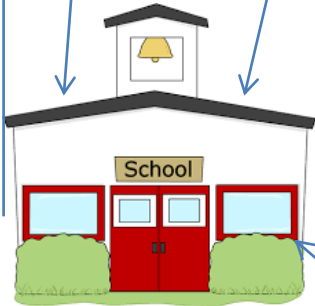

The windscreen model is used for illustration only and does not necessarily reflect the proportions of families within Liverpool that under the level of needs described. Consent is always the needed when offering single or multi-agency support to families and parental engagement is fundamental. This enables effective sharing of information and appropriate support being put in place regardless of the level of need. However, consent is not needed when there are significant welfare concerns or likely risk/harm for a child.

# Outcome for families.....

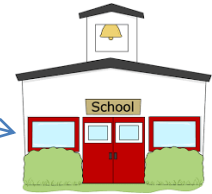

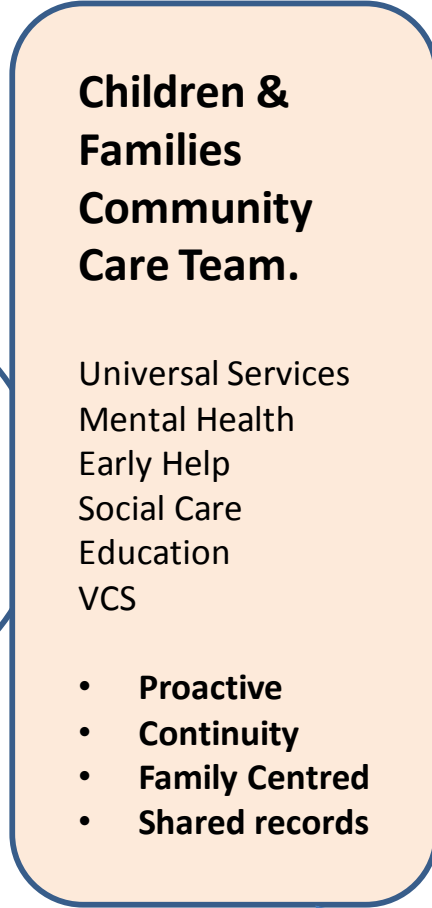

# Current State

# Future State

# How?

- Collaboration
- Listening
- Flexibility
- No Badges on Speedos
- Listen to Yoda
- Advocate
- Challenge
- Bloody Mindedness

## The NHS Staff Motto

**BE FLEXIBLE !**
